In its session on 12.03.2024 the Paris Lodron University of Salzburg Senate formally approved the curriculum for the English-language master's degree programme in Political Science, finalised by the Political Science curriculum committee at the University of Salzburg with circular resolution on 08.03.2024, in the version that follows.

The legal basis for the curriculum is the 2002 Federal Act on the Organisation of Universities and their Studies (Universities Act 2002 – UG), Federal Law Gazette, Part I, No. 120/2002, and the section of the Statutes of the University of Salzburg pertaining to university studies.

## **§ 1 General Provisions**

- (1) The number of ECTS points necessary to complete a degree in the master's programme in Political Science is 120. This corresponds to four semesters of study.
- (2) Graduates of the master's programme in Political Science hold a Master of Arts degree, abbreviated „MA“.
- (3) In order to be admitted to the master's programme in Political Science, students must hold a degree in a subject-specific bachelor's degree programme or in another subject-specific programme with at least an equivalent academic level from an accredited Austrian or foreign institute of higher education (cf. § 64 para. 3 UG).
- (4) In order to compensate for significant subject-specific differences, the student may be required to complete additional work worth up to 45 ECTS points; these requirements must be satisfied by the end of the second semester of the master's programme. Only the Rectorate or a member of staff at the University of Salzburg designated by the Rectorate is authorised to determine whether significant subject-specific differences exist.
- (5) All graduation requirements to be fulfilled by students have been assigned ECTS points. One ECTS point equals 25 hours of study, which corresponds to the average number of hours required to achieve the expected learning objectives. An academic year consists of 1500 hours, corresponding to 60 ECTS points.
- (6) Students with disabilities and/or chronic illnesses will not be subject to any form of discrimination in their studies. The University is committed to the basic principles laid out in the UN Convention on the Rights of Persons with Disabilities and Austrian non-discrimination laws as well as the policy of positive action.
- (7) The master's programme in Political Science is to be offered fully in English.

## **§ 2 Overview of the Degree Programme and Professional Skills**

### **(1) Overview of the Degree Programme**

- (a) The master's programme in Political Science offers three thematic areas, of which students will need to select two in order to develop their concentration of study. These three thematic areas are Comparative Politics, Multilevel Politics – Austria and Europe, and International Relations.

Thematic Area 1:	<b>Comparative Politics</b>
<p>The thematic area „Comparative Politics“ is the study of politics and government systems in different countries. Comparative politics draws on cross-national and cross-regional research, as well as single country studies, also looking at subnational governments, such as states and municipalities. This field of study includes the foundations of democratic theory, democratisation and regime change, institutional design, the policy process, mass attitudes and behaviour in democracies and dictatorships. A special emphasis is placed on themes surrounding democratic competition and political representation such as populism, gender and climate politics. Students will acquire a sound understanding of important political processes relevant for both developing and advanced industrial democracies. The faculty is committed to a pluralistic view of the field and seeks to train its students in a broad range of methodologies and theoretical approaches. Students are introduced to both landmark works and cutting-edge research in the field.</p>	
Thematic Area 2:	<b>Multilevel Politics – Austria and Europe</b>
<p>This thematic area builds on the idea that contemporary politics takes place on multiple levels and thus has to be understood in the context of an interplay of processes, actors, and structures along these levels. Even local politics is embedded in larger regional and national political contexts, which in turn are part of the European and international multi-level system. Political actors utilise a complex variety of opportunities and constraints to act strategically and pursue their preferences. The complexity increases as the responsibilities and rules of the political institutions at the different levels vary in relation to the policy fields. The focus of this thematic area is on politics in Austria and in the European Union, which students will analyse with the help of theories, paying particular attention to the multiple levels of political interaction. Students have the opportunity to analyse one of these levels in depth and approach the topic methodically, in relation to the political field or in an application-oriented manner.</p>	
Thematic Area 3:	<b>International Relations</b>
<p>The subject of the thematic area „International Relations“ is international politics in its manifold appearances. This comprises, on the one hand, classical fields of study such as research on peace and conflict, foreign policy analysis and the contribution of international organisations to international cooperation. On the other hand, a specific emphasis lies on international political economy, transnational actors in international politics and international environmental policy. Students will gain a comprehensive overview of the history of ideas in International Relations and particularly on recent research developments in the thematic area. Moreover, they will acquire analytical and technical competences to understand and analyse independently the most recent developments in the field.</p>	

- (b) Advanced methodological and applied classes will complement an intense engagement with the individual thematic areas. This will enable students to carry out independently theory-driven, empirical-analytical social science research while meeting high methodological

standards and developing innovative research strategies and solutions for politically and socially relevant problems.

## (2) Professional Skills and Competences (Learning Outcomes)

Upon completion of the master's programme in Political Science, students will have the following skills and competences:

<b>Competences in the Field of Study</b> , in particular:
- comprehensive knowledge about theories in political science, political concepts, actors, institutions, processes, norms and central policy fields in selected thematic areas;
- the ability to understand, assess, and apply social science research with high methodological standards to other thematic areas;
- the ability to analyse political and societal problems based on social science concepts and theories.
<b>Methods Competences</b> , in particular:
- the ability and knowledge to thoughtfully and critically apply the methodological instruments of empirical-analytical political science research, including the use of statistics software, and to plan and carry out individual research;
- the ability to cooperate with others (inter-disciplinary or in groups) to carry out research together;
- the ability to present complex studies and own research findings convincingly in front of an audience.
<b>Competences in Sound Reasoning and Judgement</b> , in particular:
- the ability to understand advanced social and political science literature and to critically analyse and assess it by drawing on the insights of neighbouring disciplines (Law, Economy, Sociology, History);
- the ability to assess the presentation of scientific research outcomes, to make comparisons and to give self-reflected feedback;
- the ability to debate and confront one's own insights and positions with those of others and to modify them, if necessary.
<b>Competences of Responsive Action</b> , in particular:
- the ability to grasp political and social problems, develop practical strategies for solutions, and bring them in in public debates;
- the ability to connect science and political practice;
- the ability to engage in politics effectively on the basis of scientific insights.

### (3) Importance and Relevance of the Degree for Society, the Scientific Community and the Labour Market

Typical professional fields of graduates of the master's programme in Political Science are:

- employment in public administration;
- employment in legislatures and political parties;
- employment in non-governmental organisations, interest groups and trade unions;
- employment in the business sector;
- employment in the media sector and in public relations;
- employment in foreign services (careers in diplomacy), in institutions of the European Union, and in international organisations;
- employment in the field of civic and political education (foundations, academies, educational institutes, etc.);
- academic careers (teaching and research at universities and research institutions).

### § 3 Structure of the Programme

The master's programme in Political Science comprises seven modules with a total number of 108 ECTS points. Of the seven modules, two are elective modules, four are compulsory modules, and one module comprises the master's seminar and the master's thesis. In addition, there are 6 ECTS points assigned for free elective courses. The master's thesis is worth 24 ECTS points, the master's examination is assigned 6 ECTS points.

	ECTS
<b>Elective Modules (2 of 3)</b>	36
Comparative Politics	18
Multilevel Politics – Austria and Europe	18
International Relations	18
<b>Compulsory Modules</b>	72
Advanced Thematic Courses in Political Science	12
Methods in Political Science	12
Professional Skills (2 of 4)	12
Socio-ecological crises	6
Master's Seminar and Master's Thesis	30
Free Elective Courses	6
Master's Examination	6
<b>Total</b>	<b>120</b>

## § 4 Course Types

The programme contains the following course types:

- **Proseminar (PS)** is a scientifically oriented (lower-level seminar-style) course and the pre-stage for seminars. Based on applied as well as theoretical work students will acquire basic knowledge and abilities in terms of scientific work and research and thereby contribute to the class actively. Students' performance is assessed constantly throughout the course and attendance is mandatory.
- **Seminar (SE)** is a scientifically advanced course. It provides in-depth knowledge in the respective area and encourages discussion and reflection on scientific themes through the active participation of students. Students' performance is assessed constantly throughout the course and attendance is mandatory.
- **Exercise Course with Lecture (UV)** connects the theoretical introduction to a field with the teaching of practical skills, whereby exercises play the major role. Students' performance is assessed constantly throughout the course and attendance is mandatory.

## § 5 Required Courses and Plan of Study

The following contains a list of modules and courses in the master's programme in Political Science. The division into semesters serves as a recommendation designed to ensure that the order in which the courses are taken builds on knowledge acquired successively and that the workload of 60 ECTS points in an academic year is not exceeded. If there are no prerequisites, modules and courses can however be taken in a different order in accordance with § 11.

Detailed descriptions of the modules including the knowledge, methods and skills to be acquired can be found in Annex I: Module Descriptions:

Master's Programme in Political Science								
Module	Course	Hours	Course Type	ECTS	Semester with ECTS			
					I	II	III	IV
<b>(1) Elective Modules (2 out of 3)</b>								
Students must select 2 out of the modules 1 to 3.								
<b>Module 1: Comparative Politics</b>								
Proseminar Foundational Texts		2	PS	6	6			
Seminar I		2	SE	6	6			
Seminar II		2	SE	6		6

	<b>Sum Total</b>			<b>120</b>	<b>30</b>	<b>30</b>	<b>30</b>	<b>30</b>

## § 6 Elective Modules

The master's programme Political Science contains three elective modules, which correspond to the three thematic areas (see § 2 para. 1 and Annex I: Module Descriptions). Students must choose two out of these three modules as fields of specialisation.

## § 7 Free Elective Courses

- (1) In the master's programme in Political Science, students are to complete elective courses totalling 6 ECTS points. These elective courses are designed to further the acquisition of additional professional skills and strengthen individual areas of focus within a student's course of study. They can be completed at any accredited postsecondary institution.
- (2) Recommended areas from which students can choose elective courses comprise:
  - Contemporary History
  - European Union Studies
  - Gender Studies
  - Geography and Spatial Planning
  - Communication Science
  - Law (e.g., Public/Constitutional Law, International Law, European Law)
  - Political Economy
  - Regional Studies
  - Sociology
  - Sustainability Studies

## **§ 8 Master's Thesis**

- (1) The master's thesis serves to demonstrate that students have acquired the ability to perform independent academic research in the area of Political Science according to current academic research methods and standards.
- (2) The topic of the master's thesis should be chosen in such a way that it is reasonable and appropriate for completion of the thesis within six months (cf. § 81 para. 2 UG).
- (3) The topic of the master's thesis must be taken from a module in the master's curriculum. The student may suggest a topic or choose from a number of topics provided by one of the available thesis advisors.
- (4) The master's thesis carries 24 ECTS points.
- (5) Students are obliged to attend the master's seminar in the thematic area relevant to the master's thesis, as this seminar serves to support students in the preparation of their thesis.
- (6) It is to be noted that both the student's work on the topic and advisor's work with the student are governed by Austrian copyright law, Federal Law Gazette No. 111/1936 (cf. § 80 para. 2 UG).

## **§ 9 International Mobility**

- (1) Students in the master's programme in Political Science are recommended to spend a semester of study abroad. This semester abroad should ideally be scheduled in the third semester of study. Course transfers for the courses and other academic achievements completed at the university abroad will be granted by the responsible body. Documents needed for the assessment of transfer courses are to be provided by the student.
- (2) Steps will be taken to ensure that the semester abroad can be completed without causing a delay in a student's course of study when the following conditions are met:
  - at least 30 ECTS points are earned for courses and other academic achievements in each semester of study abroad,
  - the content of the courses and other academic achievements completed during the period of study abroad is not identical to courses and other academic achievements already completed at the University of Salzburg,
  - confirmation by formal notification in writing before beginning the study abroad period of which courses and/or exams planned to be taken abroad are transferable to the University of Salzburg.
- (3) In addition to field-specific knowledge and skills, students stand to gain the following qualifications by studying abroad:
  - acquisition and consolidation of field-specific knowledge in a foreign language
  - acquisition and consolidation of general foreign-language skills (comprehension, conversation, etc.)
  - acquisition and consolidation of organisational skills gained by independently navigating the bureaucracy and organisational structure of a university abroad as well as daily challenges of student life abroad

- becoming acquainted with international student exchange programmes and broadening one's perspectives in one's own field of study
  - acquisition and consolidation of intercultural communication skills
- (4) Students with disabilities and/or chronic illnesses will be assisted in their search for a study abroad opportunity and in planning for their semester abroad by the University of Salzburg.

### **§ 10 Allocation of Places in Courses with a Limited Number of Participants**

- (1) The maximum number of participants in the master's programme in Political Science for the following course types is limited as follows:

Proseminar (PS)	30 participants
Seminar (SE)	30 participants
Exercise Course with Lecture (UV)	30 participants

- (2) In instances in which courses with a restricted number of participants are oversubscribed, priority of enrolment will be given to students for whom the course is part of the curriculum.
- (3) Students in the master's programme in Political Science will be given places in courses based on the ranking according to the criteria laid down in the Statutes of the University of Salzburg.
- (4) For students participating in international exchange programmes, additional places constituting at least ten percent of the maximum number of participants in each course will be made available. These places will be allocated randomly.

### **§ 11 Admission Requirements for Exams**

There are no courses that constitute a mandatory prerequisite for admission to any other course in the master's programme in Political Science. However, students are urged to follow the recommended plan of study, especially with regard to the following courses:

- the completion of the UV Methods in Political Science I before the UV Methods in Political Science II;
- the completion of the UV Methods in Political Science I and II before a SE Advanced Methods;
- the completion of both seminars and the proseminar Foundational Texts in the thematic area (elective module) where the student plans to write the master's thesis during the first two terms of the programme (to acquaint oneself to a variety of possible topics for the master's thesis);
- the completion of the master's seminar during the third semester, in order to develop a proposal for the master's thesis.

## **§ 12 Exam Regulations**

- (1) All courses in the modules evaluate students' performance at all times. Whether the teaching and learning objectives have been achieved, is assessed by written and/or oral assignments.
- (2) The final grade of a module is determined in accordance with § 19 para. 3 of the Statutes of the University of Salzburg.
- (3) For students with disabilities and/or chronic illnesses, alternative examination regulations suitable for each individual case will be offered in cooperation with the Service Facility for Family, Gender, Disability & Diversity.

## **§ 13 Master's Examination Before Examining Committee**

- (1) The master's programme in Political Science concludes with a master's examination worth 6 ECTS points before an examining committee.
- (2) Students must have successfully completed all of the required courses and the master's thesis in order to be eligible to take the master's examination.
- (3) The master's examination consists of
  - a presentation of the master's thesis by the person taking the exam;
  - questions relating to the master's thesis by members of the examining committee;
  - questions relating to another topic, different from the topic of the master's thesis, which is selected by the person taking the exam from the modules of the master programme according to § 8 para. 3.

## **§ 14 Effective Date**

The curriculum comes into force 1 October 2024.

## **§ 15 Transitional Provisions**

- (1) Students enrolled in the curriculum for the master's programme in Political Science at Paris Lodron University of Salzburg (2016 Version, University Bulletin, Special Issue 127, 24.06.2016) when this curriculum comes into force have until 30.09.2027 to complete the programme in which they are enrolled. Afterwards, they will be automatically transferred to the new curriculum.
- (2) Students subject to a different version of the curriculum may during any period of registration decide to change into this curriculum. An irrevocable written declaration is to be submitted to the Student Service Centre, should a student wish to change curricula.

An equivalence list can be found in Annex II.

## Annex I: Module Descriptions

Module name	<b>Elective Module 1: Comparative Politics</b>
Module code	EM 1
Total workload	18 ECTS
Learning outcomes	<p>Graduates ...</p> <ul style="list-style-type: none"> <li>• have a detailed understanding of research, analytical methods and theories in the thematic area of comparative politics;</li> <li>• are able to summarise and assess highly specialised literature in the thematic area of comparative politics;</li> <li>• have the ability to analyse complex scientific problems and to draw empirically sound conclusions by employing qualitative and/or quantitative methods and analyses;</li> <li>• are able to develop independently innovative research questions in the field of democracy research, communicate their own ideas clearly and convincingly, and to write scientific papers.</li> </ul>
Module content	<p>The module covers ...</p> <ul style="list-style-type: none"> <li>• the functioning and effects of political institutions, especially electoral systems and government structures;</li> <li>• the functioning of parliaments, especially with regard to questions of representation and representativeness;</li> <li>• characteristics of political parties and party systems;</li> <li>• aspects of political participation and new forms of participation;</li> <li>• analyses of civil society, public opinion, electoral behaviour and elections;</li> <li>• differences in the structure of states and constitutional design;</li> <li>• specific characteristics of authoritarian regimes, development, democratisation, political violence and regime change;</li> <li>• analyses of disadvantaged groups and inequality, populism, climate politics;</li> <li>• public policy.</li> </ul>
Courses	<p>EM 1.1 PS Foundational Texts (6 ECTS) EM 1.2 SE Seminar I (6 ECTS) EM 1.3 SE Seminar II (6 ECTS)</p>
Type of examination	<p>Course-oriented examination: The achievement of teaching and learning objectives is assessed for each course separately by written and/or oral assignments.</p>

Module name	<b>Elective Module 2: Multilevel Politics – Austria and Europe</b>
Module code	EM 2
Total workload	18 ECTS
Learning outcomes	<p>Graduates ...</p> <ul style="list-style-type: none"> <li>• have acquired detailed knowledge about central institutions and actors, as well as their interests and strategies in political multilevel processes;</li> <li>• know specific theories and theory debates on multilevel politics in Political Science, critically challenge these and can apply them for an explanation of new facts and circumstances;</li> <li>• understand research design and methods as applied in contemporary research on multilevel politics, critically challenge these and assess strengths and weaknesses of methods and theories;</li> <li>• develop independently research questions on multilevel politics and are able to answer them, by offering innovative research outcomes and/or practical solutions – in the context of individual areas of concentration chosen for this module.</li> </ul>
Module content	<p>The module covers ...</p> <ul style="list-style-type: none"> <li>• the presentation, discussion and application of basic theories and frames of analyses for multilevel politics (e.g., institutionalism, theories of European integration and Europeanisation, multilevel governance, federalism, welfare regimes and small state theories, political economy of European integration, integration law, policy analysis);</li> <li>• the treatment of current research topics in Austrian and European politics, which vary with regard to policy fields and their approach to methods and applied research.</li> </ul>
Courses	EM 2.1 PS Foundational Texts (6 ECTS) EM 2.2 SE Seminar I (6 ECTS) EM 2.3 SE Seminar II (6 ECTS)
Type of examination	Course-oriented examination: The achievement of teaching and learning objectives is assessed for each course separately by written and/or oral assignments.

Module name	<b>Elective Module 3: International Relations</b>
Module code	EM 3
Total workload	18 ECTS
Learning outcomes	<p>Graduates ...</p> <ul style="list-style-type: none"> <li>• have gained specialised empirical knowledge about international relations, for example with regard to the functioning of international organisations or international trade politics;</li> <li>• know the relevant theories in the field of International Relations in detail, know how to distinguish them and how to critically challenge them;</li> <li>• are able to infer explanations from relevant theories to explain current political problems or new phenomena;</li> <li>• understand research design and methods in current research on international relations, challenge them critically and compare strengths and weaknesses of theories among each other and with theories of other disciplines;</li> <li>• develop interesting and innovative research questions in the field and are able to answer these with the help of a suitable research design;</li> <li>• are able to communicate their knowledge in international politics and make convincing arguments regarding their conclusions in debates.</li> </ul>
Module content	<p>The module covers ...</p> <ul style="list-style-type: none"> <li>• theories of international relations: realism, institutionalism, liberal theory, constructivism as well as frames of analysis in international political economy;</li> <li>• the most important debates in International Relations, including those concerning the functioning of international organisations, the design of international institutions, the role of public international law in international relations, the role of transnational actors and the reasons for war and peace;</li> <li>• depending on the individual areas of concentration, current research topics in the fields of peace and conflict research, foreign policy analysis, international institutions, international environmental policy, international cooperation, international political economy and transnational actors.</li> </ul>
Courses	EM 3.1 PS Foundational Texts (6 ECTS) EM 3.2 SE Seminar I (6 ECTS) EM 3.3 SE Seminar II (6 ECTS)
Type of examination	Course-oriented examination: The achievement of teaching and learning objectives is assessed for each course separately by written and/or oral assignments.

Module name	<b>Compulsory Module 4: Advanced Thematic Courses in Political Science</b>
Module code	CM 4
Total workload	12 ECTS
Learning outcomes	<p>Graduates ...</p> <ul style="list-style-type: none"> <li>• are able, based on the acquired theoretical knowledge and methodological skills, to pose new research questions in selected thematic areas, to evaluate hypotheses and to develop innovative solutions for practical problems in the field, and/or</li> <li>• are able to apply theoretical knowledge and methodological skills to two thematic areas, which they choose as focal points.</li> </ul>
Module content	<p>The module covers...</p> <ul style="list-style-type: none"> <li>• in-depth knowledge and skills in two thematic areas chosen as concentration, through special, methodological, policy field specific and/or applied courses, and/or</li> <li>• enhancing of knowledge and skills acquired in two focal areas by selecting an additional thematic area.</li> </ul>
Courses	Two freely selected seminars in the field of Political Science (12 ECTS)
Type of examination	Course-oriented examination: The achievement of teaching and learning objectives is assessed for each course separately by written and/or oral assignments.

Module name	<b>Compulsory Module 5: Methods in Political Science</b>
Module code	CM 5
Total workload	12 ECTS
Learning outcomes	<p>Students ...</p> <ul style="list-style-type: none"> <li>• have developed good knowledge of quantitative and qualitative methods in political science;</li> <li>• are able to select the appropriate methods based on this knowledge, in order to answer a complex research question in political science;</li> <li>• are able to apply these methods independently for their own research questions and to conceptualise and finalise a research process.</li> </ul>
Module content	<p>The module covers the entire research process in political science and contains ...</p> <ul style="list-style-type: none"> <li>• the formulation of research questions and development of theoretical frameworks;</li> <li>• the formulation of hypotheses and definition of concepts;</li> <li>• choice of research design;</li> <li>• operationalisation, meaning measurement of concepts;</li> <li>• the selection of units of analysis;</li> <li>• different forms of data collection (interview, content analysis, observation, etc.);</li> <li>• data management;</li> <li>• data analysis (different forms of qualitative and quantitative analysis).</li> </ul>
Courses	CM 5.1 UV Methods in Political Science I (6 ECTS) CM 5.2 UV Methods in Political Science II (6 ECTS)
Type of examination	Course-oriented examination: The achievement of teaching and learning objectives is assessed for each course separately by written and/or oral assignments.

Module name	<b>Compulsory Module 6: Professional Skills</b>
Module code	CM 6
Total workload	12 ECTS
Learning outcomes	<p>Depending on the choice of courses in the module, graduates can ...</p> <ul style="list-style-type: none"> <li>• understand specialised texts that apply advanced qualitative and/or quantitative social science methods, assess them critically and use them competently for their own studies;</li> <li>• improve their verbal and written communication skills to disseminate their research findings;</li> <li>• apply their acquired theoretical and methodological knowledge and skills to analyse and critically evaluate political or social challenges and problems and develop innovative solution strategies.</li> </ul>
Module content	<p>The module covers ...</p> <ul style="list-style-type: none"> <li>• in-depth knowledge and competences with regard to social science methods, which are useful for the master's thesis;</li> <li>• the application of advanced methods to specific political science research questions.</li> </ul>
Courses	<p>Students must select 2 out of the following 4 courses:</p> <ul style="list-style-type: none"> <li>• SE Advanced Methods: Course I (6 ECTS)</li> <li>• SE Advanced Methods: Course II (6 ECTS)</li> <li>• SE Applied Course (6 ECTS)</li> <li>• SE Academic Writing (6 ECTS)</li> </ul>
Type of examination	<p>Course-oriented examination: The achievement of teaching and learning objectives is assessed for each course separately by written and/or oral assignments.</p>

Module name	<b>Compulsory Module 7: Socio-ecological crises</b>
Module code	CM 7
Total workload	6 ECTS
Learning outcomes	<p>Graduates ...</p> <ul style="list-style-type: none"> <li>• know important social and ecological challenges;</li> <li>• are able to identify problems in relation to socio-ecological challenges;</li> <li>• understand the relationships between cause and effect of issues with socio-ecological relevance;</li> <li>• are able to scrutinize social developments and analyze them in relation to socio-ecological challenges and classify them;</li> <li>• can evaluate arguments and develop justifications, that are applicable to socio-ecological problems;</li> <li>• can design strategies that contribute to the solution of socio-ecological problems.</li> </ul>
Module content	The aim of each degree program is also to raise awareness of important social and ecological challenges and their relevance for current social developments and phenomena as well as basic skills in dealing with them. The interdisciplinary module is designed to achieve this aim.
Courses	Freely selectable courses from the pool of courses on topics relating to socio-ecological crises, such as, in particular, gender studies, sustainability and the climate crisis, democracy education, poverty or migration research.
Type of examination	Course-oriented examination: The achievement of teaching and learning objectives is assessed for each course separately, either by a written exam (in the case of lectures), or by written and/or oral assignments (in the case of courses which evaluate student performance at all times).
