

Exploring Structures at the Atomic Scale

New Possibilities in Transmission Electron Microscopy at PLUS

Date: 07.02.2025 - 10h00-14h00

Location: Hörsaal II - Lise Meitner, Jakob Haringer-Strasse 2A, Salzburg

Invited speakers:

Pietro Parisse (CNR - Trieste)

Seeing is Believing: How Microscopy Can Help Unravel the Invisible World of Extracellular Vesicles

Yolita Eggeler (KIT - Karlsruhe)

The Fascination of Creep-Induced Stacking Faults Explored via Transmission Electron Microscopy: Segregation and Phase Transformations on the Nanometer Scale in High-Temperature Materials

Registration & contact:
adelheid.ganzera@plus.ac.at
Registration deadline 07.01.2025
